

SEARCH ENGINE MARKETING

WHAT DO YOU GET?

RESEARCH

After completing a meeting to determine your custom campaign, you will receive a list of 200-500+ keywords if the **most popular search terms** in a geographical area for the last 12 months

For example, these are some keywords from a local CBD company looking to reach customers nationally on Google!

We will come up with a competitive plan to get you to the top of the Google search Results!

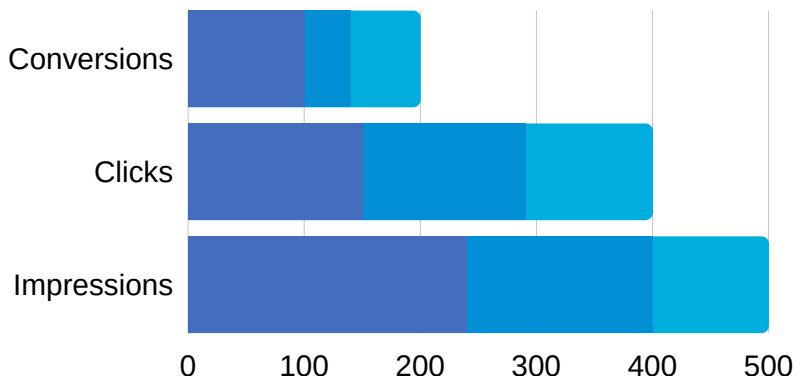

CREATIVE

Once a budget is approved, Savannah builds out custom keywords (including the competition!), adgroups, and text ads to create leads
